Blackbox Tv Plus Package
Installing Blackbox TV on your current Firestick

BLACKBOX   BLACKBOX
TV   TV

Once the new app is installed, please delete your old Blackbox app
(Arrow down to it, Click the Menu(☰) button and click Uninstall)

1. Start off making sure your settings are correct. Click Home button on remote. Scroll over to Settings(Click it). Arrow over to My Fire TV(click it) then go into Developer options. Make sure ADB debugging and Apps from Unknown Sources are turned on. If not, click each one and turn them to ON.

2. Go back to Home, Arrow down to Your Apps & Channels and scroll over to you see the Downloader icon. Click on it and if it's not already installed click to Download and Install. Once you have it installed, search again in Your Apps & Channels and open Downlader. If you do not have Downloader in your list of apps, go to the Magnifying Glass at the top left or the Search button and click on it. Type in (Downloader) Once Downloader appears, click on it and click Install. Once installed click Open. Arrow over to the left column and click on Settings. Make sure all of the boxes are checked. Arrow back over the the box that says http:// and input the link below. Please spell it correctly.

Downloader ⬇

Downloader ⬇ by ▢AFTVnews.com
Enter the URL of the website you want to load or the file
http://bit.ly/bbtvneons
Go

Where it says enter URL type.. __bit.ly/bbtvneons__

3. If typed correctly, it will change over to a page where you will see the app downloading. You will see a page that says Install at the bottom. Arrow down and Click on Install. Once it is finished installing, Click on Done then Delete. and Delete again. Now click on the Home(House) Button on the remote to go Back to Home. We now will find the Blackbox App you just installed and move it.

If you get a WHITE SCREEN that don't change over, scroll over to Settings in this Downloader app, and check Enable Javascript then go re-enter the above.
