

# Blackbox TV Xtreme

## Install Xtreme on Your Onn Box

1. Start off making sure you are logged in to your Gmail account. Press the (🏠) on the remote. Arrow over and click on Apps. Then arrow Down to the Search box, and type: Downloader. When completed, arrow Down and click the Magnifying Glass.
2. Click on Downloader by AFTVnews.com. When the screen opens, arrow Down and click on Install. When completed, click on Open. On the {Welcome to Downloader} popup screen, click OK.
3. On the following screen, arrow up to the Search box. Arrow down to the {Enter a URL}, Type: [bit.ly/bbtvxtreme2025](https://bit.ly/bbtvxtreme2025), click GO.

4. If typed correctly, you will see a popup, click Settings. Arrow down to the Downloader row and click the Center Button on remote to turn the slider to ON, then click Back.
5. You will now see a Blackbox pop-up box; Arrow over and click Install. When it's completed, click, Open.

**\*STOP-Retrieve your login info to complete the next steps\***  
**-ACCOUNT LOGIN STEPS-**

6. When the screen opens, arrow down and [BBTV Xtreme](#) (click it). Click Access token; Use the pop-up keyboard to input your given Token. When completed, Arrow down and click (✓), then click Apply. Arrow down again and click Settings, then click on Account Setup. This time click on [BBTV Neons](#). Click on Login; here enter your given Neons Username. Once completed, click (✓), then arrow down and click Apply. Arrow down and click Password. Enter your given Neons Password. Once completed arrow down and click (✓), then arrow down and click Apply. Arrow down, one more time and click Apply.

**-REFRESH CHANNELS/TV GUIDE-**

7. Arrow over to the left Menu bar and click Refresh(🔄). When it finishes, click Close; when you see OK, click (←), on remote. Next, arrow down to Settings(⚙️), then down and click on EPG teleguide, then click Reload EPG Teleguide. Done.

**-SETTING UP YOUR FAVORITE CHANNELS-**

8. From the Blackbox Main Menu Screen, Arrow over to the left Menu bar, and up to the top and click on the Search icon(🔍). When the keyboard appears; type the name of your closest Major City in the search. Then arrow to the bottom right corner and click the Mag Glass(🔍). **Arrow down to the first network you want to save and hold down the Center Button. You will see a pop-up, click the Center Button again to Add to Favorites. Done. Do this for any local channel you want to save. When completed, click the (←) button. Now, arrow over and click on Live Stream.** Find and click the folder titled Network Tv. Use the same process. Pick your top channels; **hold down Center button, and click again to Add to Favorites.** Try all folders, and add all your Favs.

**-MOVING YOUR BLACKBOX APP TO THE FRONT-**

9. Press the (🏠) button on remote. Arrow over and click on Apps. Arrow down to Your Apps, and over to the last listed apps. Arrow over to Blackbox Xtreme. Hold the Center Button down and on the pop-up, click the Center Button again on Move. While highlighted use your left arrow to move the app, all the way to the front of your apps. Once it is placed, click the Center Button. Down, click Done.

Setup is complete. Click on Blackbox Xtreme, and Enjoy your app. As a reference, Use the icons below to find your viewing pleasure.
