# Blackbox TV

*Self-install & Quick Reference Guide*
## Setting up your Firestick for Blackbox Tv Service

1. Take all parts out of the box and lay them out, Parts are:

   a. Firestick  b. Remote  c. Wall plug  d. power cord
   e. Firestick HDMI Adaptor

2. Plug the HDMI adaptor to Firestick, make sure its tight.

HDMI Adapter     Firestick

Plug adapter into Firestick

3. Pick up your power cord insert one side of the power cord into the power plug and the other side into the side of Firestick.

Power Cord

4. Find an empty HDMI port in the back of your tv and plug the firestick into that port.  Remember to write down the number of the port so you can change your tv INPUT to that port, once you power up the firestick.

We Use:
Input 2

5. Plug the wall plug into the wall securely, Turn on your tv and use your TV remote or TV buttons to change your tv to the input you previously wrote down.

Plug this end into the wall.

Changed tv input to 2
